little red dot

We love... their great chemistry

Henry and Harry Zhuang, both 28 ANIMATORS

When twins start working together, it's either double trouble or sweet synergy. For identical twins Henry and Harry, the latter is definitely the case - all three short animation films they've made have won awards. The biggest one they've snagged so far is the Encouragement Award at last year's DigiCon6 Awards, a prestigious regional animation contest in Japan, for their film *Contained*. More recently, the same film won Best Animation at the 2nd Singapore Short Film Awards 2011. The siblings, who just graduated from Nanyang Technological University's School of Art, Design & Media, plan to eventually set up an animation studio and produce their own films.

"Animation is more than art. It is a type of language for me to express my inner thoughts and feelings to the outside world." - Harry
